San Secondo Parmense (PR), Italy

PROFILE

I've been building software for 8+ years and leading the people who build it: from project lead with a team of interns to senior developer on banking and HR systems. That's why I'm studying Psychological Sciences at the University of Parma: to combine technical solidity with a deeper understanding of people and teams. I work towards clear goals, with an analytical approach and clear, direct communication.

WORK EXPERIENCE

Senior Full-Stack Developer

SEP 2024 – PRESENT

Code It Digital Solutions S.r.l. — Parma (PR) — Body Rental

- In body rental I build software and consult for clients on management and banking solutions.
- HR platform: I handled the functional analysis, design and implementation of the resource and timesheet system.
- Banking: contract-management apps, integration with banking systems and document digitalization.

STACK · C# · Docker · Kubernetes · Git · CI/CD · Microservices

IT Management & Dev-Analyst

MAR 2022 – JUL 2024

Raffaele Caruso S.p.A. — Soragna (PR)

- I worked alongside the IT Manager and the system administrator at a leading high-end tailoring company.
- I analysed requirements and assessed feasibility, then built and debugged the procedures; I maintained and extended the corporate ERP.
- After releases I supported users and handled infrastructure issues.

STACK · JavaScript · Ext.js Sencha · .NET ASPX · HTML · CSS · Microsoft SQL Server · Crystal Reports

Full-Stack Developer (Junior → Senior)

SEP 2017 – MAR 2022

SiGrade S.p.A. — Parma (PR)

- Internship (2017–2018): COBOL on MainFrame and testing of the bank check digitalization procedure.
- Middle Developer (2018–2021): GDPR-compliant apps and visitor management; as project lead I coordinated 3 interns.
- Senior Developer (2021–2022): I estimated projects; I built and maintained the corporate management system and the S.I.A.E.-certified ticketing system.

STACK · COBOL · MainFrame · Full-Stack Web · GDPR compliance · Project Management
